

Supporting Physician Research

New administrative team offers essential support to physicians conducting research

Physician researchers in Kaiser Permanente Southern California are finding answers to clinical questions that make a difference in health.

To balance the demands of research and clinical practice, the Department of Research & Evaluation has created a new administrative unit to support physicians with their research. The Department of Research & Evaluation's new Off-Site Administrative Support Services (OSASS) provides essential services to physician researchers with project-related business.

The Department of Research & Evaluation's new Off-Site Administrative Support Services (OSASS) provides essential services to physician researchers with project-related business.
